# Certero for Enterprise SAM

Not just another Software Asset Management tool: A fully-integrated, end-to-end SAM solution that has more five-star customer reviews than any other.

Built for your key software licensing challenges, digital transformation goals and evolving technology consumption. Certero for Enterprise SAM uses hyperscalable cloud architecture and provisioning to deliver an unrivaled customer experience for enterprises large and small.

Certero for Enterprise SAM makes for happy users. Just take a glance at the five-star reviews on Gartner Peer Insights.

It's easier to implement and use, faster to deliver value to the organization and simply does a better job of helping you achieve your SAM goals. From complete visibility of the IT estate, to optimized software license positions for key publishers and improved governance of new technologies like cloud and mobile.

Our Software Asset Management customers say it best: "With Certero... it's just a better experience."

About Certero

At Certero, we're passionate about customer success. It doesn't matter how great our SAM tools are or how fantastic our Unified Platform is if our users aren't happy. We broke the mold when we developed the world's only truly Unified Platform for both SAM & ITAM stakeholders. No more disparate products, separate code bases and user interfaces. That's why our customers don't need to pay extra for expensive integration work, why setup is painless and how we've been able to build unrivalled functionality and automation.
