

Certero for Enterprise ITAM

Integrated IT Asset Management solution delivering full discovery & inventory across the technology estate

From creating and maintaining an inventory baseline to supporting digital transformation goals, Certero for Enterprise ITAM has you covered

Certero for Enterprise ITAM is the easiest, fastest and most resource-efficient way to discover, inventory and manage your IT assets, from mobile to desktop, datacenter to cloud. It's faster to implement and configure, which means you start delivering value to the organization quicker.

It's easier to use, so your total cost of ownership is lower. And it's better at capturing and analyzing inventory data on all hardware and software, so you can do more with the insights Certero for Enterprise ITAM has to offer.

What makes Certero for Enterprise ITAM right for you?

- Automatically discover new devices eliminating your IT asset blind spots
 - Reduced time and effort deploying and maintaining the solution.
- Multi-platform integrated inventory for Windows, Mac, Linux, Unix, Mobile, Cloud
 - Provides a single view of IT assets. Reduce time and effort reporting on assets
- Agent & Agentless inventory scanning
 - Reduce barriers and blockages to full inventory
- Monitor application consumption
 - Reduce software spend by identifying unused and underutilized applications
- Integrated patch management
 - Enhanced security via the remediation and reporting on Microsoft Operating System and Application vulnerabilities
- Software distribution
 - Remove unused or underutilized products – reducing software spend. Deploy software without the need for direct user engagement – provides efficient cost-effective software deployments
- Discover printers, routers, switches & more
 - True ITAM capabilities beyond computers

An IT Asset Management solution built for how you use technology today & tomorrow

All Your Hardware & Software Inventory in a Single Place

- Windows Desktop & Server (agent & agentless)
- Unix & Linux servers on-premises (agent & agentless)
- AWS & Azure (with Certero for Cloud)
- Android and iOS (with Certero for Mobile)
- Full hardware & software inventory
- Automatically discover IP-addressable devices for complete asset inventory
- Automatically creates virtual machine, host, guest and cluster relationships

Application Monitoring

- Automatically monitor all deployed applications without complicated configuration
- Immediately identify under-used software or identify use of non-sanctioned apps
- Retain a full 12 months of usage data for trending
- Transform raw usage into business intelligence with reporting & dashboards

Built-in Reporting & Analytics

- Full access to both granular data and management dashboards
- Create role-specific dashboards for users, stakeholders & executives
- Unlimited reporting & dashboards
- Build views to support decision-making, forecasting & what-if scenarios

SaaS, On-Premise or Hybrid Provisioning: Do ITAM Your Way

- Hyperscalable SaaS architecture grows with your needs
- Minimal on-premises server requirements
- Up and running in as little as 15 minutes!

Patch Management

- Automate the detection and remediation of vulnerabilities
- Automatically schedule patch installations and server reboots
- Schedule based on product, vendor or severity
- Integration with WSUS for easy deployment
- Detailed patch audit reports.

Software Distribution

- Support full asset lifecycle management
- Automatic targeting based on inventory criteria
- Works standalone or in conjunction with SCCM
- Supports out-of-hours installs and upgrades

Benefits of the Certero Platform:

- CMDB integration & population
- Supports financial management, cross-charging & cost recovery
- Deep-dive information on all IT assets
- Integrates with ITSM solution to minimize resolution times

About Certero

Certero deliver [as-a-service] IT Hardware, Software, SaaS and Cloud Asset Management solutions and services, to help enable organizations to digitally transform their IT. We do this by challenging the traditional, outdated delivery method of disappointing point solutions, and instead deliver true unification across all platforms, from mobile to main-frame to cloud, delivered as SaaS in days, not months or years. Combined with our self-service solutions we support organizations to drive digital transformation agendas through increased efficiency and automation. With businesses in the UK, USA and Australia, Certero is a customer first company with a passion for customer success, earning the trust of some of the leading global brands across the finance, manufacturing, health, retail and technology sectors. That's why Certero is viewed number one, year on year for customer service as well as having the highest scores for product capabilities, making Certero a safe, trusted partner to help with your digitally transformation.
