

Training

Certero for SaaS: Office 365

Using Certero for SaaS to connect to Microsoft 365 instances, import data and prepare detailed usage and optimization reports relevant to your organization and subscriptions. Learn how to quickly add charts and reports to an Office 365 Dashboard to get a dynamic view of cost savings opportunities.

Attendee Prerequisites

- Completion of the Certero Essentials training course
- Attendees should have experience of:
 - Licensing via Microsoft Office 365 subscriptions
 - On-premise Microsoft licensing

Agenda

- Setting up the Office 365 Connector
- Usage Optimization considerations
- Reporting and Dashboards

Benefits of Attending

- Gain a deeper understanding of how the solution obtains configuration and usage data across your G Suite accounts
- Learn about the wealth and breadth of G Suite inventory and usage data
- Understand how easily and quickly you can gain a holistic view of subscription usage across your entire business
- Learn how to identify optimization opportunities that can be shown as cost savings
- Increase productivity by quickly accessing the information important to your role
- Learn about the specific features available to help you manage your entitlement and maintain a position of optimized usage
- Understand the high levels of automation available within the solution including alerting and reporting – continuous optimization

Who Should Attend

This course is for those individuals in your organization that are responsible for Office 365 license assignments to your employees in a cost efficient and optimal way.

- Office 365 Administrators
- SAM Administrators
- SAM Consultants
